MINING AND RANCHE ADVOCATE AND GENERAL ADVERTISER.

VOLUME 2, NO. 42.

CALGARY, ALBERTA, WEDNESDAY, JUNE 17, 1885

WHOLE NUMBER 94

JARRETT & CUSHING

Manufacture all kinds of

Sash, Doors, Store Fronts

BLINDS, BRACKETS, MOULDINGS, & FRAMES

Estimates given on all kinds of buildings.

Plans and Specifications Prepared.

Particular building shown, see us and get price.

Barrack Notes.

Private Battalion of the 9th who generally takes the mail to the Canadian and arrives for the different G.O.s who are at distant posts and who is also correspondent to a Quebec journal, we regret to say confined to the hospital through sickness.

Football was inaugurated at the Fort on Monday evening.

The carts of the Government farm were busy Tuesday loading oats for Edmonson.

Serge Blouin now fills the position of Vague-Meete for the 9th battalion, in a much more acceptable manner.

On Wednesday morning a black bear crossed the river behind the stables at the fort on Monday afternoon.

Vital J. Grimal, Roman Catholic Bishop of St. Albert, with Father Lacombe and Father Dowd were guests at the officers' mess on Monday afternoon.

The company at the Fort attended divine service at the R.C. Mission Chapel last evening, morning, when Bishop Grimal presided.

Capt. Fennec, brother-in-law of Col. Amyot's, who recently arrived from Quebec to join his command, brought a mare drum for one of the members.

Thursday and Friday last were busy days in the Transport and Supply office, preparing vouchers and other documents for the returned Edmonton teamsters, scots and drivers.

The days of the turn-tos are numbered. A few more will be had in camp.

Officers of the army commands east of this notably the Halifax battalion, are continually passing through on their way to the mountains.

The troops at the fort wonder why they do not get more fish to eat. The rivers abound in trout, but no writer seems yet to have observed that fishing is not a western sport.

Could not the corporation be induced to engage the services of a few Indians to make the stones of the fort.

Last Saturday morning the 2nd, consisting of Lieut. Pelletier, Dr. DeBelle and five men visited Langdon in a hussar, returning leisurely on Monday afternoon.

Capt. Drost came up from Langdon on Tuesday.

Dr. Girard, of MacLeod, was in town last Thursday on his way to the Blackfoot reserve. He reported the garrison there all well, and the rivers south of Calgary high. He was a guest at the officers' mess.

Major Dugat, paymaster, was busy all last week preparing the various pay lists. The present command of the 9th battalion being so scattered, with companies at Langdon, Gleichen, Crowfoot, MacLeod and Edmonton, necessitated considerable figuring.

Last Tuesday crowd was started on the square in front of the court and guard-quarters. The players were Lt. Col. Angus, Quartermaster Talbot, Capt. Angus, and Lieut. Schenck. The crowd seemed to be the most successful player, capturing most of the games.

The courier service between here and Edmonton, which cost the government \$100 a day is about to be discontinued. This service has no doubt been of great value, but one reason is that the money expended in it had not previously been expended in permanent telegraph line and bridge along the northern trail.

At the suggestion of the Transport and Supply Office, the commandant appointed Lt. Col. Angus Adjutant P. Casgrain left for Scarlett's on Thursday last with Corp. Poudrier, to examine and report on the feasibility of bridging Willow creek at that point on the Edmonton-Toronto trail. The commandant detailed at the meeting the Scout's for days at a time, at a long distance from the government. The Adjutant visited the place and made a careful examination of the proposed site. The plans submitted by him to Major Middleton have been accepted and the construction will be proceeded with at once, some of the material having been sent forward on Tuesday. The estimated cost of the bridge is \$400 and the length of time necessary to build it, one week.

The editor of a Buffalo newspaper recently asked his subscribers to name the ten most important inventions of all time. More than 800 answers were received, and the fact that the inventions awarded the most votes did not include the "luminous key-hole" shows that the Buffalo editor has very few married men among his readers.

"Yes," said Mrs. Catchem, "there are my daughters over there on the sofa they have a million dollars between them." It was not until after they were married to those daughters that the two young men who overheard the above remark found out that Mrs. Catchem was referring to the rich and famous of the world's society girls. Mrs. Catchem couldn't tell a fib, but she knew how to speak the truth advantageously.

THE MAMMOTH STORE!

Spring 1885.

New Goods.

We beg to advise our friends and customers that we are offering for this season's trade a more than usually attractive assortment in the various lines of goods to which we specially devote our attention, among which we would mention:

A New Stipendiary.
At the last meeting of the Board of Trade it was voted to present a new stipendiary to the Territories. This is in accordance with Sec 1-185 which statement that some measure of judicial reform would greatly benefit the provincial districts, and following as it does a petition from Calgary on the subject, affords a gratifying example of the attention these and like public subjects are attracting at the hands of the government.

The district to be presided over by the new judge does not yet appear, but it may be guessed at. The greatest of the greatest number—including the judges—demands a rearrangement of the circuits similar to the following: Edmonton and Calgary will be in one circuit, and the rest into two judicial districts. This district to be presided over by Col. Macleod, as being the most important district west of Moosejaw. Macleod and Medicina Dist., which have recently been brought within short distance of each other by railway, could then be formed into a new judicial district with a judge resident either at Macleod or the Haslet's, or Stipendiary. This would leave Battleford and Prince Albert (165 miles apart) to the present judge Rouleau, whose present circuit includes Edmonton, 500 miles from Prince Albert far too extensive a district for one judge to attend to. We hope the judge at Richey would then have charge (as he now has) of Regina, Qu'Appelle and Moosejaw.

This arrangement would not only be the most convenient for suitors but for the judges as well, all the stipendiaries residing in distant families for the most part, with the exception of Col. Macleod who would be removed from Macleod to Calgary, having to change their places of residence—an important consideration to most men, although Judge Rouleau may be regarded as an exception just now. Whether this arrangement is made or not it is to be hoped that a new judge will be appointed, and it is to be hoped the applicant will be as excellent as the measure of reform involved.

The Temperance Cause.

To the Editor of the Herald.
I would like to have space in your valuable paper I would like to say the few words with reference to the feeling that seems to prevail in some minds that the Calgary division of the Sons of Temperance have lineage detectives in town employed to entrap and inflame those who are engaged in the illicit traffic of selling liquor. I would like to say that my sympathies with the temperance cause are strong in me, and think it is a crying shame that the authorities who are here for the purpose of looking after this business do not at least try and put some check upon it. Yet I do not approve of the means which I am sorry to say of one of the members of our division who foolishly resorted to this in order to bring one of the guilty parties to justice. I believe he excuses himself by giving people to understand that he has been employed by the division to look after this business, and he is working under their direction. I simply say it is not true. The master was never used to it. It is divisional policy to think that one of the members except himself knew about it. After it was done consequently we are not responsible either as individual members or a division for the actions of this person (who to say the least, is a little cranky) even if he is a member of the division.

Our work in the temperance cause is not in vain. While we have to admit that the laws of our land are openly defied, and those who should enforce them look quickly on, we know that we cannot accomplish anything in the temperance cause by taking the course referred to. In fact as Sons of Temperance we cannot do it. We are not in the position of politicians. Our mission is to lift up those who have fallen under the influence of strong drink and win them back to the path of truth and sobriety. But our chief hope of success is in endeavouring to inculcate temperance principles into the minds of the young. For it is the young (to whom we must be the men and women who are going to govern this great country, and if we want our country to be in the great true sense of the term we want men at the helm whose brains are not fuddled by strong drink). We have had too much of that kind of progress already, and our division is composed chiefly of young people, and since we have been organized we have made very good progress, and I hope our friends will look at this master in the proper light and not charge us with who did not have any thing to do with it.

Thanking you for space etc.

Yours truly,
W. H. Cosens,
Calgary June 17th 1888.

A Son of Temperance.

It will be remembered that a prominent member of the Sons of Temperance in Calgary so far forced himself recently as to take a dip in the glass which cheered. A lapse of this kind generally brings awful consequences in its train as the Sons of Temperance well know. In this case the guilty sinner had to go to the police station, his constituents longing to hear an information against Dr. Samanita who sold him the dip. Thus does one downward step always lead to another! It is pleasant to know that the Sons of Temperance, on hearing of this, promptly recalled the member. Mr. Cosens' letter, in another column, explains the order has been established by honest men for no honest persons. This however is a rather curious case for the present cannot be furthered. To understand this better than more than one can see we think the Order in Calgary took the proper course under the circumstance.

Quebec Colonists.

The first batch of Col. Barrie's party of Quebec colonists may be expected by train now.

Horse Race.

Reserve the meeting at Clark's and Braden's to-morrow night to get up horses on Dominion Day.

Confirmation.

There was a confirmation service held at Bishop Grandin in the Mission chapel half past eight this morning.

Loss in Sheep.

It is rumored at Sheep Creek that Alex. Beggs has lost all his sheep in the recent flood. We hope to be able to refute the rumour next week.

1,000 Pounds.

Another consignment of 1,000 pounds of freight for transhipment north will reach Calgary presently. The freight will fill fifty railway cars, and take 750 carts to transport.

Glanders.

A mare belonging to Capt. John Ross, which was picked south of the railway track last week, was found by Constable Layman to be suffering from glanders. The constable had the animal shot, and ground disinfected.

The Royal Typewriter.

The spring round-up is now in progress and will probably engage the attention of stockmen for a fortnight or more. The number of calves to be handled is expected to be exceptionally large, owing to the favorableness of the past winter for stock.

Calgary Board of Trade.

After 25 of the trading merchants in Calgary met on Monday night at the Royal Hotel to form a Board of Trade. A Board was formed with Mr. Riley elected president, Mr. Rogers, secretary, and a committee board of seven. Correspondence will be opened with the Winnipeg Board of Trade immediately.

Calgary Brass Band.

The instruments for the use of the band arrived from Hamilton, Ont., on Sunday. They include a cornet, trombone, bass and snare drums. As they are not yet in tune in to the strength of the band is brought up to six pieces. The members had their first practice on Monday night under Mr. Millward's leadership.

Sheep Shearing.

5,000 odd sheep of the Cochrane range are now going through the shearing process. Owing to some of the sheep having been singed in an incendiary raid the result is a loss of a great deal of wool. The average weight of fleeces will only come up to 6 or 6½ lbs. although the majority are up to 7 pounds. Skilled shearers from Montana are superintending the process.

Sheep Creek Ford.

Mr. Cameron, of Sheep Creek, invites the attention of the travelling public to the crossing of Sheep Creek opposite his residence. While many of the crossings of the stream south have been placed in order, there is, at this point, a first-class ford over Sheep Creek.

Oil on Troubled Waters.

Miss Hunt her brother and a young boy had an unpleasant experience last week when driving sport misway of the stream, which the recent treacherous fall rendered very high and turbulent. Miss Hunt in her desire to get across, hit her head over her own being impeded with difficulty by some half-bred who were near her, while a cargo of butter which they were bringing in to market floated down stream.

The Livingstone Lease.

As will be seen by a reference to our list of townships open for entry, the Livingstone Lease has recently been opened. This will be a great boon to a large number of settlers. Now if a claim of squatters in Township 23 and 24 Range 1 west of the 5th Meridian and those of squatters in the same townships in range 20 west of the 4th meridian would be settled, the new lease of the Calgry bottoms could have a little to do with "agin the government," with perhaps the exception of an unstocked lease or two.

New Stores.

Transport and Supply Officer McGillivray has represented to the proper authorities that the building of a fort at a military station known as the site of supplies to be shipped north. Major McGillivray anticipates a good deal of shipment north during the coming months, and when the Mounted Police return the present garrison will be replaced by a force of 100 men. The site chosen by Major McGillivray for the new store is immediately west of the present transport and supply officer, between Major Dowling's quarters and the river.

Dominic Day.

There are numerous preparations being made in town for the proper celebration of Dominic Day, Saturday, June 23rd. A meeting will be held at Clark's on the steps to get up a series of horse races on the day itself, being rightly considered that Calgary failed to get up a proper horse race for nearly 10 years. The St. Domingo is also to be celebrated, and the availability of games and, as we remember last year, the Oddfellows contemplate an excursion to Camrose, although this latter may fall through owing to the difficulties of making arrangements with the C.P.R. to get a special train. There is also talk of getting up a ball in the evening.

Conservatives Rally.

The Mass Meeting of the Conservatives of Canada, at which will be held at the Masonic Hall, tomorrow night, the 20th instant, for the purposes of enrollment. All Conservatives are requested to attend.

Date of Taxation.

The citizens of the town council has been able to fix the rate of taxation in Calgary at 10 mills in the \$1. Not only will this rate cover municipal expenses but it will provide for the payment of town hall and lockup at the estimated cost of \$1800. There is no doubt but that it has been possible to arrange financial matters so satisfactorily owing to the able assistance afforded by the civic police court which is to be found in the city of nearly \$2000 a month. The rigid economy which has been practised in civic matters of late has also tended to the same result.

Mailed Stage.

The Mailed Stage or at least the middle half of it will be soon in the middle of Sheep Creek, where it struck fast last week. The mule, horses, express and freight went. The men along the trail crossed the ridge higher up the way in what is called the draw, and got the stage free again after the coach stuck. They think not one man in hundred could have done it. It seems the coach in crossing struck the forewheel on a stone on the lower side, and could not get free.

When the stage reached the top it almost reached the bar and Steele managed to swim to them and set them free. He then got the stage free again, drew free and managed to lasso the coach, which was floating down stream, to a tree.

PERSONAL.

Mr. Gen. Strange left town last week for the ranches at Stratton.

Gen. Strange, Col. Otter and Col. Outram have been made justices of the peace for the territories.

Mr. J. E. Sparrow, Davis of MacLeod, Inderswick of Jones and Inderswick, and C. A. Egerton, son of Lord Egerton, Eng., left last week for the round-up.

G. E. D. Wood, editor of the Macleod Gazette arrived in town last night after somewhat adventurous trip across the straits, the whole party having to swim across the sea. Mrs. Wood came as far as the Levings.

Hy Blascer, barrister, returned from the mountains on Sunday last, having been away for some time. While admiring the mountain scenery, as in duty bound, he was compelled to turn back to get back to the green foot hills once more.

Mrs. J. Jek Evans, Davies and Wilhers, who came here three weeks ago to look at the lands of the Union and Hand Ranching and Colonization Company, have returned home. They returned early yesterday. They professed themselves greatly pleased with their visit and are now engaged in the construction of a house and garden, and are to move into the Amphitheatre in Toronto, and is president of the Toronto Labour Conservative Women's Association.

We are greatly interested in the formation of the Conservative Association whilst here.
